

Natalia Lebedinskaya

QA Engineer · Manual · API / Backend · SQL · Mobile · Fintech

Age 24 · Russian citizen · Relocation to Serbia in progress · Belgrade / Novi Sad / Remote

natalia.lebedinskaya@outlook.com · natalia-lebedinskaya.github.io/portfolio · linkedin.com/in/natalia-lebedinskaya-115512422

PROFILE

QA Engineer with 2+ years of experience across banking, public transport, fintech and AI products. Progressed from high-volume customer support to testing federal-scale and internal banking systems. Strong in manual testing, API/backend flows, data analysis, test design, defect investigation and cross-functional collaboration.

Available to start remotely now and relocate to Serbia once current documentation is completed. Belgrade or Novi Sad for office/hybrid roles; any Serbian city for full remote. Salary expectation: from USD 1,200 per month.

CORE SKILLS

Manual · Functional · Regression · Smoke · Integration · Exploratory · Web/Mobile · Test design · Test cases · Checklists · Bug reports · REST API · Postman · Swagger/OpenAPI · SQL · DBeaver · Kafka · Kibana · Kubernetes · Linux/Windows · Test IT · Charles Proxy · Chrome DevTools · Git/GitHub · Excel · Playwright fundamentals

EXPERIENCE

Software Testing Specialist | VTB Bank | Jun 2025 — Present

- Contributes to several banking projects: customer-data migration during a bank-to-bank transfer and an internal service that streamlines work for adjacent departments.
- Supported early testing of the Digital Ruble project and is currently preparing to move to another project within the bank.
- Validates UI/API/backend flows and data, maintains test documentation, investigates defects and coordinates with development and adjacent teams.
- Works with SQL, DBeaver, Kafka, Swagger/OpenAPI, Kubernetes, Kibana, Charles Proxy and internal test-management systems.

QA Engineer | RNKB Bank | Jul 2024 — Jun 2025

- Tested a federal-scale public-transport project covering bank-card fare payments and concession-card recognition.
- Validated dispatcher and driver services, consolidated information, GPS behavior and telemetry; coordinated results with adjacent departments.
- Performed functional, integration, API and regression testing using Postman, Swagger, Test IT, Excel, Outlook, Linux/Windows, Zoom and DION.
- Completed the onboarding/internship program and moved to independent project work in 2 weeks instead of the standard track of up to 6 months.

Hotline / Client Support Specialist | RNKB Bank | Mar 2023 — Jul 2024

- Resolved diverse customer and financial requests for a major bank in a high-volume contact-center environment.
- Coordinated with adjacent departments, reproduced problems and transferred clear context for resolution; began working with Linux and corporate Outlook email.

Product QA · part-time | AI web/mobile products | May 2026 — Present

- Tests user and payment flows, AI generation, edge cases, API scenarios and release readiness.

PROFESSIONAL DEVELOPMENT

Studies test automation, SQL and Swift; develops practical skills with Terminal and AI-agent tools for analysis, prototyping and more efficient QA work.

EDUCATION & RECOGNITION

- Professional retraining diploma — Software Testing Engineer.
- QA Course — ANO DPO “Yandex Educational Technologies”, 18 Apr 2024.
- VTB NFC Award for Outstanding Contribution to Key Business Results, H1 2025.
- VTB NFC Award for Excellence in Team Collaboration, 2025.

LANGUAGES & WORK FORMAT

Russian and Ukrainian — native. English — A1 and actively improving. Russian-speaking daily communication is preferred during onboarding. Seeks official employment, relocation support and preferably company-provided equipment.
