Summary

QA Engineer with 2+ years of hands-on experience in fintech and AI products. Focus: manual, API/backend and mobile testing; SQL-based data validation; requirements analysis; regression coverage; and release readiness. Comfortable collaborating across product, engineering and data workflows.

Core skills

Testing: Manual, functional, regression, smoke, integration, exploratory, mobile testing

API and data: Postman, REST, Swagger/OpenAPI, SQL, PostgreSQL, DBeaver, Kafka

Quality delivery: Requirements analysis, test design, defect analysis, fix verification, release validation

Tools: Jira, Test IT, Charles Proxy, Chrome DevTools, Git/GitHub, Kibana/log analysis

Working knowledge: Supabase, Render, Vercel, Kubernetes fundamentals, Playwright fundamentals, Ollama, Linux; Windows as primary corporate workstation

Experience

May 2026 - Present

Independent Part-time Product Work | Product QA, AI Products

Test mobile and web user journeys, provider-based generation and payment flows, edge cases and release readiness. Maintain actionable defect reports and end-to-end QA documentation for an early-stage AI product.

Jun 2025 - Present

Confidential Fintech Organization | QA-focused Specialist

Test an internal client-data migration service; design functional and regression coverage; validate PostgreSQL data with SQL; support defect investigation and release decisions.

Jul 2024 - Jun 2025

Banking Technology | QA Engineer

Tested terminal software and financial-operation scenarios. Performed functional, API and regression testing and used Postman and SQL for response and data validation.

Mar 2023 - Jul 2024

Financial Services | Banking Client Support Specialist

Built practical fintech domain knowledge across customer, financial and internal banking processes.

Selected projects

FOT AI - Production-deployed Telegram Mini App for event-based AI photo generation. QA focus: API contract thinking, negative scenarios, manual coverage, release readiness and USD/VND payment flows. Live demo and repository available from the portfolio.

CareerMove AI - Private personal job-intelligence product that aggregates structured vacancy feeds, normalizes and deduplicates jobs, preserves application status and supports deterministic matching with optional open-model reranking.

Education and credentials

Bachelor's Degree in Landscape Architecture, 2022

Professional Retraining Diploma in Software Testing and Quality Assurance; QA Course, Yandex Educational Technologies, 2024

NFC Recognition Awards, 2025 - internal recognition for contribution to business results and team collaboration in a fintech product stream
